Ayer's Pills

Are particularly adapted to derangements of the digestive apparatus, and diseases arising from impurity of the blood. A large part of all the complaints that afflict mankind originate in one of these, and consequently these Pills are found to cure many varieties of disease.

HIGHLY IMPORTANT DISCOVERY.

Fousel's Pabulum Vitae

Has now gained its position before the public as *THE ONLY REMEDY* yet discovered for the speedy relief and permanent cure of

CONSUMPTION,

Coughs, Colds, Hoarseness, Bronchitis and all other Pulmonary Complaints.

The discovery of an eminent French Physician after many years of study and observation, it continually meets with the most ASTONISHING SUCCESS in the treatment of the above complaints.

Its stated popularity, numerous certificates of remarkable cures, the recommendation of some of our most eminent physicians, and the analysis of Dr. A. A. Hayes, the State Assayer, all give convincing proofs of

THE UNRIVALLED VIRTUES
And Unqualified Superiority

of this preparation to any other remedy now extant, and are constantly contributing to give it a wider and more enviable reputation. From its volatile nature it affords vapors freely, and consequently is DIRECT IN ITS ACTION UPON THE LUNGS AND AIR PASSAGES.

The discredit which has been thrown upon all preparations not prescribed by regular physicians, by reason of the recklessness with which worthless and spurious compounds have been imposed upon the public, will tend to deter many from availing themselves of the benefits of this preparation. The agent, however, assures the public in a most positive manner that his medicine is not only *perfectly safe and free from all other deleterious ingredients* but guarantees that it will effect all that he represents, not having heard of a single case where it has failed to give satisfaction.

It is warranted to cure
Consumption by using One to Six Bottles;

Scientific American.
PROSPECTUS.
Volume Fourteen.
BEGINS SEPTEMBER 11, 1858.

MECHANICS, INVENTORS, MANUFACTURERS AND FARMERS.

THE SCIENTIFIC AMERICAN has now reached its Fourteenth Year, and will enter upon a New Volume on the 11th of September. It is the only weekly publication of the kind now issued in this country, and it has a very extensive circulation in all the States of the Union. It is not, as some might suppose from its title, a dry, abstruse work on technical science, on the contrary, it so deals with the great events going on in the scientific, mechanical, and industrial worlds, as to please and instruct every one. If the Mechanic or Artisan wishes to know the best machine in use, or how to make any substance employed in his business—if the Housewife wishes to get a recipe for making a good color, &c.—if the Inventor wishes to know what is going on in the way of improvements—if the Manufacturer wishes to keep posted with the times and to employ the best facilities in his business—if the Man of Leisure and Study wishes to keep himself familiar with the progress made in the chemical laboratory, or in the construction of telegraphs, steamships, railroads, reapers, mowers, and a thousand other appliances both of peace and war—all these desiderata can be found in the SCIENTIFIC AMERICAN, and not elsewhere. They are here presented in a reliable and interesting form, adapted to the comprehension of minds unlearned in the higher branches of science and art.

TERMS.—One Copy, One year, $2,00. One Copy, Six Months, $1; Five Copies, Six Months, $4; Ten Copies, Six Months, $8; Ten Copies, Twelve Months, $15; Fifteen Copies, 12 Months $22; Twenty Copies, Twelve Months, $28, in advance.

Specimen copies sent gratuitously for inspection. Southern and Western money, or Postage Stamps, taken for subscriptions. Letters should be directed to MUNN & CO., 128 Fulton Street, New York.

Messrs. Munn & Co. are extensively engaged in procuring patents for new inventions, and will advise inventors, without charge, in regard to the novelty of their improvements. aug24

SWAIM'S
Celebrated Panacea,
FOR THE CURE OF
INCIPIENT CONSUMPTION,

Scrofula, General Debility, White Swelling, Rheumatism, Diseases of the Liver and Skin and all Diseases arising from Impurities of the Blood, and the effects of Mercury.

SWAIM'S PANACEA has been for more than thirty years celebrated in this country and in Europe for its extraordinary cures—for the certificates of which reference is made to the directions and books, (which may be had gratis) accompanying the Panacea.

It has been used in hospitals and private practice and has had the singular fortune of being recommended by the most celebrated physicians and other eminent persons. Among others by

W. Gibson, M. D., Prof. of Surgery, Pa. Univ.
Valentine Mott, M. D., Prof. of Surgery, New York University.
W. P. Dewees, M. D., Prof. of Mid., Pa. Univ.
N. Chapman, M. D., Prof. of Physic, Pa. Univ.
T. Parke, M. D., Pres't College Physicians, Phila.
Dr. Del Valle, Professor of Medicine, Havana.
Jose Lourenco de Luz, Prof. of Surgery, Lisbon.
J. Chipman, Member Royal College Surgeons, London.
G. W. Erving, late Minister to Spain.
Sir Thomas Pearson, Maj. Gen. British Army.
Gilbert Robertson, British Consul, &c., &c.

Besides a large number of Ministers of the Gospel, Members of Congress, Philanthropists, &c.

And also, the wonderful cures effected by Swaim's Panacea, have for many years made it an invaluable remedy. The Panacea does not contain mercury in any form, and being an innocent preparation, it may be given to the most tender infant.

The retail price has been reduced to $1,50 per bottle, (containing three half pints,) or three bottles for $4.

BEWARE OF IMPOSITION.

Swaim's Panacea is in round bottles, fluted longitudinally, with the following letters blown on the glass:

"SWAIM'S—PANACEA—PHILADA."

and having the name of JAS. SWAIM stamped on the sealing wax, and written on the label covering the cork, and a new label for the side of the bottle, composed of geometric lathe work, comprising nine different dies, which have been turned for the exclusive use of the proprietor, by Draper & Co., bank note engravers, of Phila. Four dies of different patterns form the body of the work, and in the centre is a portrait of the late Wm. Swaim, separated from the borders by two circles of lathe work. The words "Swaim's Panacea" are engraved conspicuously on two turned strips, and a large semi-circular die forms the upper margin. The borders are composed of plain lathe work strips, outside of which is engraved, in small letters, the entry of the copyright. Also,

Swaim's Vermifuge,

A valuable Family Medicine, being a highly approved remedy for all diseases arising from debility of the digestive organs, such as Worms, Cholera Morbus, Dysentery, Fever and Ague, Bleeding Piles, Sick Headache, &c., &c. See the Pamphlet (which may be had gratis) accompanying the Vermifuge.

Prepared only at SWAIM'S LABORATORY, THE OLD STAND, Seventh Street, below Chesnut, Philadelphia, and sold by all the respectable druggists in the United States.

CAUTION TO THE PUBLIC.

Persons wishing to obtain the genuine SWAIM'S PANACEA and SWAIM'S VERMIFUGE, should be careful to observe that the name

SWAIM

is spelled correctly on the bottle and labels, or they may be imposed on by medicines made in imitation of them by a person bearing a somewhat similar name, well calculated to deceive.

MAINE STATE
AGRICULTURAL SOCIETY.

THE objects of the Society are to bring together the best specimens of Stock, and productions of Household Manufactures and labor saving Machines of all descriptions, and hereby stimulate a laudable emulation to excel in every department of Industry. We see no way of bringing about these desirable results so satisfactorily as by an exhibition, where the public may freely examine and pass upon the merits of stock or articles exhibited. We believe such Exhibitions are the medium best calculated to bring to notice the popular merits of farm stock and productions and the mechanic finds his machine, carriage, or fabric, much better understood than by any other system of advertising. We desire to make the Exhibition of 1858 surpass all former ones.

We invite all to exhibit their stock, productions, fancies, and machinery of any kind. The Rotunda of the State House and adjacent Halls have been granted to the Society for its use, and a large building is now being erected for the exhibition of heavy articles, farming utensils, &c.

Liberal arrangements have been made for the transportation of stock, and articles for exhibition, either one or both ways, free, on presentation of the Secretary's certificate that such stock or articles have been on exhibition, and not changed owners. Exhibitors are requested to give two weeks' notice to the Superintendents of the Roads over which they may design to pass—of the amount of stock and articles, and the Station at which it is to be taken upon the Road, so that suitable provision may be made for transportation. The Roads that will convey Stock, &c., *free,* are as follows:—Portland, Saco, and Portsmouth, Kennebec and Portland, Somerset and Kennebec Railroads. The Roads that will convey Stock, &c., *at half price,* are as follows:—Penobscot and Kennebec, Atlantic and St. Lawrence, York and Cumberland Railroads.

The Roads that offer to convey Stock *free* will run a Special Train on Monday and Saturday of the week of the Exhibition—other days, by regular trains, at *half price.* Articles may be sent any time during the week *previous* at half price. (All Stock at the owner's risk.)

The Show and Fair will be holden at Augusta, on the 21st, 22d, 23d and 24th of September 1858. Contributors who intend exhibiting articles in the Halls are requested to make application for space to the Superintendent, Capt. CHARLES SIMMONS, as early as one week previous to the time of Exhibition, so that the least delay possible may be had in their arrangement.

Our former Exhibitions have been of a high order, and productive of much good, and still hoping that a general interest towards our Society and its efforts may be felt throughout the State.

REMOVAL.
United States and Foreign
PATENT AGENCY.
SAMUEL COOPER,

Late Principal Examiner of Patents in the United States Patent Office, at Washington,

HAS REMOVED HIS OFFICE TO
WEBSTER BANK BUILDING,
13 Exchange Street, Boston.

PATENTS secured in the United States, and in all other patent granting countries. Specifications and drawings prepared. Caveats filed. Reconsiderations procured, of applications that have been rejected upon imperfectly prepared papers. Interferences prosecuted. Re-issues and extensions procured, and in general, all business connected with the Patent Office transacted with care and promptness.

British and other foreign patents procured thro' prompt and confidential agents in London and Paris.

Persons residing at a distance may obtain all necessary information, and have their business transacted, by writing to the subscriber, without the trouble and expense of a visit to Washington.

He begs leave to refer those unacquainted with him to the following testimonials.

From the Hon. Charles Mason, Commissioner of Patents.

U. S. PATENT OFFICE, Feb 23 1853.

I take great pleasure in stating that during the time I have been acting as Commissioner of Patents, Samuel Cooper, Esq., of Boston, has been engaged as Solicitor and has been in that capacity in constant correspondence and intercourse with the Office, he has evinced a thorough acquaintance with the Patent Law, and with the rules and practice of the office, a close attention to the interests of his clients, and a marked candor and courtesy that has rendered the transaction of business with him a pleasure. I have no hesitation in stating that I regard him as one of the very best agents for the transaction of business with this office with whom I am acquainted.

CHARLES MASON, Commissioner.

From the Examiners of the Patent Office.

The undersigned, Principal and Assistant Examiners in the United States Patent Office, have for several years been well acquainted with Mr. Samuel Cooper, late a principal Examiner in the office, and take pleasure in stating that he is a gentleman of the highest moral character, of unquestioned knowledge in the business and practice of the office, and that his scientific attainments are such as eminently fit him for the business in which he is about to engage.

HENRY B. RENWICK, L. D. GALE, S. H. LANE, } Principal Examiners.
P. SOUTHGATE SMITH, T. R. PEALE, THOS. T. EVERETT, WM. C. LANGDON, } Assistant Examiners.

From long acquaintance and intimate official relations with Mr. Cooper, I fully and heartily concur in the foregoing recommendation made by my late colleagues.

WM. P. N. FITZGERALD,
Late Principal Examiner of Patents.

California Steamers,
Carrying the United States Mail.
5th and 20th of each month.

Through Tickets including transit of the Isthmus, via Panama R. R.

CAUTION TO THE PUBLIC.

On account of the numerous frauds and impositions on travelers, those bound to California are cautioned to buy Tickets at the only authorized Agencies of the United States Mail Line as below.

By order of the Post master General, the United States Mail Steamers will hereafter be despatched from New York to Aspinwall, on the 5th and 20th of each month.

Passengers are landed at the Railroad Depot, Aspinwall, and conveyed across to the Pacific Steamers *without any extra expense.* This is the *only* line giving entire Through Tickets, guaranteeing no detention on the Isthmus.

Transit made in *four hours entirely by daylight,* thus avoiding the [illegible] exposure at night in open boats to [illegible] of dangerous lake and river navigation, over rocks and shoals.

Arrangements have been completed so that the regular U. S. Pacific Mail Steamer will leave Panama for San Francisco immediately on arrival of the Atlantic Mails and passengers, thus securing passengers by the Mail Line a *sure* and *short* passage with the greatest comfort and safety to health.

Tickets must be signed by one of the Company's Agents before they will be recognized by the Agent at Panama, and tickets thus signed can be obtained of the *only authorized Agent* for the U. S. and Pacific Mail Steamship Companies, in this city. C. L. BARTLETT, Agent, No. 16 Broad street, Boston.

POIGNANT ANECDOTE.—A spice merchant at Constantinople, carrying a piece of fine cloth to a tailor, desired to have a cloak or tunic made of it, and inquired if there was enough. The artist having measured the stuff, declared it sufficient, and then requested to know the cost of it.

"Five sequins," replied the customer, "were the price, and considering the quality, that is not at all dear."

The tailor paused a moment.

"I am but a beginner in the trade," said he to the spice dealer, at length, "and money is an object to me. Give me two sequins and I will show you how you may save three in the stuff."

"Agreed," said the other, and the money was produced and paid.

"I am a person of my word. This cloth has cost you five sequins, and I have promised to save you three. Take it to some other tailor, and [illegible] direct you to one of more experience—for I have never made such a dress as you want, and if I attempt it, it will be spoiled."

This reminds us of an anecdote related of Sheridan, who went to a [illegible] to get a wig. On being measured, the barber, who was a liberal [illegible], invited the orator to take some refreshment [illegible]. There he showed him so much [illegible] that Sheridan's heart was touched. When they arose from the table and were separating, the latter looking at the barber [illegible] said,

"On reflection I cannot [illegible] make my wig."

"Astonished [illegible] the other exclaimed—

"Good Heavens, Mr. Sheridan, how can I have displeased you?"

"Why, look [illegible] you are such an honest fellow [illegible] the wig, for I never [illegible] I'll go to [illegible]"

American Board of Commissioners for Foreign Missions.

DETROIT, Sept. 8, 1858.

The annual sermon was preached by Rev. George E. Shepard, D. D., of Bangor, Me., from Luke 11:41: "But rather give alms of such things as ye have and behold all things are clean unto you." The discourse was a plain practical [illegible] of the proposition that [illegible] we have and [illegible] we are belong to God, it is a solemn duty to consecrate to him our property and all the faculties we possess. The speaker allowed that the Christian might labor to acquire, though it must not be done with the design or desire to become rich. The Christian's duty to give till he *feels* it was enforced by various illustrations. There ought to be [illegible] in the soul, the speaker remarked, a deep trench between God and Mammon. In conclusion Dr. Shepard referred to the great religious interest which had been felt throughout the land, and expressed a hope that the accessions to the churches had come by such a consecration as would enable them [illegible] for the promotion of the Redeemer's kingdom.

When Caesar was killed by Brutus how many cuts he had [illegible], he answered "*Et tu, Brute.*"

An Irish fellow [illegible] his life insured, [illegible] have something to [illegible] dart on the cold [illegible] once was."

DEATH FROM FRIGHT.—A young lady, eighteen or nineteen years of age, daughter of Mr. Haywood, gardener of John Jacob Astor, Jr., at Esopus, near Rondout, N. Y., died on Tuesday from the effects of fright. She was riding in a wagon when the horse took fright and ran with great speed for about a mile, when he stopped. The young woman was taken from the wagon in a dying condition, and lived but a few minutes.

MORTALITY FROM CHLOROFORM.—It appears that the mortality [illegible] the London [illegible] has increased since the introduction of chloroform [illegible] from twenty one to thirty three per cent. [illegible] vary the expression, instead of amputation being fatal in a less proportion than one in four of those operated upon, it now proves fatal to one in three. The Medical Times and Gazette asks, in view of these facts [illegible] Whether so enormous a sacrifice of human life is not too high a price to be paid for anaesthesia?

A LONG CONCEALED MURDER BROUGHT TO LIGHT.—Several months since the remains of a human being, almost entirely destroyed by the action of the weather, were discovered in the woods about fifteen miles from Detroit.—A valise and letters were found near, going to show that the body was that of one John Hickey, a freight railroad conductor. It was then supposed that he had wandered thither, and had died naturally. As it appeared, however, he started from the west in July, 1857, having $1400 in gold upon his person. In his company was one John Kennedy, a poor man, whom Hickey befriended by paying his railway fare to the west. Nothing was heard of either Hickey or Kennedy till the relations of the former, living in Milford, received letters from Kennedy saying that Hickey had changed his mind, and concluded to go to Ireland instead of the west, leaving his trunk with him, (Kennedy). This story seemed improbable, and from the fact that Kennedy has since possessed plenty of ready money, he was believed to have murdered his benefactor for his money. He has been tracked from place to place by police detectives, but none of them have yet been able to arrest him.

The Democratic Party Opposed to the Aroostook Railroad.

Let the People of Eastern Maine remember!

That the Democratic party opposes the only means by which the Aroostook Railroad can be built! It is opposed to developing the resources of Eastern Maine! SEE THE RESOLUTIONS OF THE PISCATAQUIS COUNTY DEMOCRATIC CONVENTION ADOPTED THIS YEAR—and remember also that *not a single Democratic paper in the State favored the Aroostook Railroad bill before the Legislature last winter.* But on the contrary, nearly every one of them OPPOSED GRANTING STATE AID TO THE ENTERPRISE. This is part of the Democratic platform in this District—PART OF JAMES S. WILEY'S PLATFORM!

Let the People remember it.

Beware of Spurious Tickets!

The hunkers are attempting to elect one or more of their county candidates by inserting their names in a Republican ballot printed in the same type as the genuine tickets.

Let every Republican be sure that EVERY NAME on his ticket is that of a regular nominee of his party.

Forney says the editor of the Washington Union would sell his soul for a farm of postage. Whereupon Prentice remarks that the postage-vender would be outrageously cheated.

"Democracy" as defined by its own Exponents.

(From the Washington Union.)

"DEMOCRACY as taught in Maine, IS THE SAME as that recognized in *Georgia*; and *the Platforms* which have been erected by the Democrats of THE SOUTH *cannot be distinguished in* THE SLIGHTEST PARTICULAR *from the Platforms erected by the Democrats of* THE NORTH."

(From the Richmond Enquirer.)

"THE DEMOCRATS of the SOUTH cannot rely on the old grounds of apology and excuse for Slavery—for they seek not only to retain it where it is, but *to extend it into regions where it is now unknown.*"

Keep them Before the People.

The following declarations—from high Democratic authority,—which show that sham democracy is UTTERLY OPPOSED TO THE INTERESTS OF LABOR, and that the whole influence of that party is in favor of NATIONALIZING AND PERPETUATING SLAVERY in the Union,—or, if defeated in that, then they are for DISSOLUTION.

[From the Lecompton Constitution—as adopted from the Washington Union.]

Section 1. The right of property is before and HIGHER THAN ANY CONSTITUTIONAL SANCTION, and the right of the owner of a slave to such slave and its increase, is the same and as inviolable as the right of the owner of any property whatever.

[Hence the right of a slaveholder to his slaves in the national territories is more sacred even than the constitutional right claimed below.]

[From President Buchanan's Letter to Prof. Silliman.]

"SLAVERY existed at that period (1854) "and STILL EXISTS IN KANSAS UNDER THE CONSTITUTION OF THE "UNITED STATES. *This point has at last "been* FINALLY DECIDED *by the high "est tribunal (Judge Taney) known to our laws.* "HOW IT COULD HAVE EVER BEEN DOUBTED IS A "MYSTERY."

[From Buchanan's Message.]

☞Kansas is, therefore, as much A SLAVE STATE AS GEORGIA OR SOUTH CAROLINA.

[From the N. Y. Day Book, July, 1858.]

"The Republicans, who hold that the negro has the same natural rights as the white man, are logical and consistent in refusing to protect this so called slave property; but a Democrat who denies to the negro any legal or political existence in the Territories, and claims that white men alone constitute the political community, DEPARTS FROM THE FUNDAMENTAL PRINCIPLES OF DEMOCRACY *when he refuses to protect "slave" property. The whole question is involved into this simple right or no right to protection to slave property in the Federal Territories.* IT MUST CONSTITUTE THE ISSUE IN 1860."

[From Gov. Hammond's late Speech.]

"*All the opposition measures of which the South has complained in the last thirty years she herself inaugurated.* WASHINGTON AND JEFFERSON IN THE MATTER OF SLAVERY, SET THE EVIL EXAMPLE.

[From Senator Hammond's Speech.]

"*If we had dissolved the Union,* and had engaged in a brush with some people, (which must occur in setting up for ourselves, and lawfully establishing our institutions,) *it would have been best for us; but now, IF WE CAN RULE IN THE UNION, let us remain!*"

[From the Dred Scott Decision.]

They the framers of the Constitution considered the African race "so far inferior that they *had no rights which the white man was bound to respect*; and that the negro might *justly and lawfully* be reduced to slavery for his benefit."

DEMOCRACY THEN!

June 26, 1849, the Democratic party of Maine held a State Convention, at which Hon. John Hubbard was nominated for Governor. This convention was composed of six hundred delegates, at which the following resolutions were passed,—only one solitary member voting against them.

"*Resolved,* That the institution of human slavery is at variance with the theory of our Government, abhorrent to the common sentiment of mankind, and fraught with danger to all who come within the sphere of its influence; that the Federal Government possesses *adequate power to inhibit its existence in the Territories of the Union that the constitutionality of this power has been settled by judicial construction, by contemporaneous expositions, and by repeated acts of legislation;* and that we enjoin upon our Senators and Representatives in Congress to make every exertion, and employ all their influence, to procure the passage of a *law forever excluding slavery* from the Territories of California and New Mexico."

Among the Bangor delegates who voted for that resolution, were HASTINGS STRICKLAND, DUDLEY F. LEAVITT and SAMUEL H. BLAKE.

This is now sound Republican doctrine.

DEMOCRACY NOW!

[From President Buchanan's Letter to Prof. Silliman.]

"SLAVERY existed at that period (1854) "and STILL EXISTS IN KANSAS UNDER THE CONSTITUTION OF THE "UNITED STATES."

[From Buchanan's Message.]

☞Kansas is, therefore, as much A SLAVE STATE AS GEORGIA OR SOUTH CAROLINA.

[From the Lecompton Constitution—as adopted from the Washington Union.]

Section 1. The right of property is before and HIGHER THAN ANY CONSTITUTIONAL SANCTION, and the right of the owner of a slave to such slave and its increase, is the same and as inviolable as the right of the owner of any property whatever.

[Telegraph to Evening Paper.]

RAILROAD ACCIDENT. *Cincinnati, Sept. 11, 12 A. M.* The express train going west on the Steubenville and Cincinnati Railroad, went through a bridge last night. A great many are reported killed.

The Prospects are Bright.

Mr. Hamlin and others of our friends who returned from the Sixth District on Saturday, bring the most inspiring accounts of the enthusiasm and determination of the people.—They assure us that Bradbury will be OVERWHELMINGLY DEFEATED. Old Hancock will do better for the Republican cause than she did in 1856.

Our friends are all alive and full of the most perfect assurance of success. The enemy intended to carry on a secret campaign—and rested his hopes upon *surprising* the people.—But that game has been blocked. Bradbury has been driven to an open fight, and now FEELS THAT HE IS BEATEN. Every meeting upon either side, in that district, shows this. The democratic meetings have not been attended by one quarter so many people as those of the Republicans.

"Eternal Vigilance is the Price of Liberty!"

Let no Republican neglect this immortal precept. Every friend of Freedom should REMEMBER IT TO-DAY—it ever. No vote should be lost, from supineness, neglect, or a confidence in the strength of the party.

Is there a friend of freedom who has heretofore given his energies and his time to the building up of the Republican party, but who now thinks the party can take care of itself?—that it is strong enough, to do even without his vote? To such we recommend that article of THE FREEMAN'S CREED which we have quoted above. "Eternal vigilance IS the price of liberty!" Every friend of liberty owes it to himself, to his country and to the cause, to MARCH WITH THE ARRAY OF FREEDOM TO EVERY BATTLE!

THERE IS A BATTLE TO-DAY! The enemy is working by THE POWER OF MONEY—money contributed by Federal Office Holders, AND BY SOUTHERN PRO-SLAVERY ASSOCIATIONS, to break into the Republican phalanx in Maine. That enemy must be met and conquered BY THE FREEMAN'S UNBOUGHT BALLOT.—AND EVERY BALLOT SHOULD BE THROWN!

Do you want Maine Disgraced?

Is any Republican willing to have Maine retrograde in the cause of Free Labor, and Constitutional Freedom? If not, let him come out and meet the enemy to-day! Let every man perform again his duty of voting to sustain Republicanism—and there is no danger of the result.

A Full Vote is a Republican Victory!

Remember! That to ensure a Republican victory to-day it is only necessary for the Republicans to turn out and VOTE. An easy method—but one which may be neglected.—Whoever neglects it, aids the enemy,—BOTH HERE AND THROUGHOUT THE UNION!

Let every Republican Vote To-day

Again we urge upon our friends the important duty of VOTING. It is an easy and a simple duty—and every Republican who fails to perform it, is in some measure responsible for any deficiency which may appear, and for any aid and comfort the enemy may draw therefrom.

If any man calls himself a Republican, and professes to desire the success of the Republican party, and of Republican principles—LET HIM VOTE TO-DAY, if he never votes again. If the enemy is beaten now, he is beaten in 1860.

No Republican can be Justified in Not Voting.

Should the enemy be able to boast of "*gains*" after election, whose fault will it be? IT WILL BE THE FAULT OF EVERY REPUBLICAN WHO STAYS AWAY FROM THE POLLS! Hunkerism and pro-slavery can in no other way reduce the Republican majority!

Friends! See to it then. Let every man throw his vote to sustain the party of Freedom! If he loves the cause of Free Labor, or the prosperity and reputation of his country LET HIM VOTE TO-DAY!

One More Battle for the Right!

The enemy is now trying his LAST HOPE of regaining power in Maine. That hope is in the over confidence of Republicans. By the free use of money, and a secret organization, they hope TO SURPRISE THE PEOPLE—and defeat us at the ballot-box by a midnight march. We warn every Republican, therefore to be on his guard. Let us meet the enemy once more IN FULL RANKS, and give him an overthrow like that of 1856.

It is time to close up the column, and MARCH!

See that your Name is on the List!

Let every voter see if his name is on the list of his Ward. If not, be sure and see that it is put on at the earliest moment. Don't Delay!

Vote Early!

Make sure of your own vote and send along your neighbors, at an early hour. Nothing is lost by taking time by the forelock.

We have the most encouraging news from all quarters.—*Union.*

In Dedham, one of these "quarters?" A glorious Republican meeting was held there on Friday evening—addressed by Hon. Hannibal Hamlin, Wm. H. McCrillis and Joseph Bartlett, Esq. From 200 to 300 persons were present at this meeting in that small town.

On the same evening, brother Emery, of the Union, was announced to speak at a "grand democratic rally" in the same town. The meeting assembled, and the immense number of TEN PERSONS appeared. Is this the sort of news which is so highly "encouraging" to our hunker brethren?

Facts worth Remembering—The Fishing Bounty and the Treaty

That the Reciprocity Treaty, so ruinous to Maine, WAS MADE BY A DEMOCRATIC ADMINISTRATION.

That the Reciprocity Treaty was so clinched by the Democratic Secretary, Marcy, that IT CANNOT BE CHANGED TILL 1865;

That the attack upon the Fishing Bounties was founded UPON REPORTS FURNISHED BY DEMOCRATIC COLLECTORS all along the coast, from Eastport to New Bedford;

That the bill for repealing the Fishing Bounties passed the Senate by a strictly party vote—30 administration democrats voting for the repeal, and 24 opponents of the administration voting against it;

That the passage of the repeal through the House of Representatives WAS ARRESTED BY THE CARE AND EXERTION OF THE REPUBLICAN DELEGATION, who prevented the Democrats from getting a vote upon the bill.

The Strength of the Republican Party.

The Vice President, Mr Breckenridge, said in a recent speech to his constituents:

"The REPUBLICAN PARTY IS THE STRONGEST ORGANIZATION IN THE UNION, unless the Democratic party is strong it. It is a powerful, a compact, a hopeful organization. * * * * Don't depreciate the strength of the Republican party, its principles are deeper and broader, and its purposes more resolute than anything on the surface would indicate. DON'T UNDERRATE THEIR POWER."

The other side of this, the brag game, may be found in the columns of the Bangor Union, where in spread eagle style it is declared that Dr Jordan is using up the Republicans at an alarming rate!!!!—*Kennebec Journal.*

Can't get up a Meeting!

The hunkers of Bangor are trying hard to make Republicans believe that great gains will be made for the pro-slavery democracy in this city—but THEY CAN SHOW NO INDICATIONS OF IT. They have been trying for three weeks to get up a decent meeting,—but HAVE MISERABLY FAILED AT EVERY ATTEMPT. Three weeks ago they commenced with a tremendous show of big posters to call "grand rallys" of the democracy for each Saturday evening up to the election. Two of them utterly failed—and they then GAVE IT UP IN DESPAIR. THEY CALLED NO MEETING FOR LAST SATURDAY EVENING!

The Highest Crime!

"We maintain that a failure to abide by the laws of the Democratic party is the highest crime that a representative can commit."—*Washington Union.*

True democracy considers it the highest duty of a representative to obey the will of *his constituents,* when consistent with his moral and religious duties. Modern democracy reverses all this, and makes this his "highest crime." He is to obey the will of the PRESIDENT, regardless of the will of his constituents.

Woodpeckers

The democratic party seems to be incessantly haunted with woodpeckers. All its presses see woodpeckers and nothing else flitting about their heads. They invade the sanctums of its editors, and convert them into the realms of the shades, and flap their wings about their ears like the messengers of death. They have even invaded their conventions, filling the souls of the "unterrified" with shuddering horror, as if death's wing had touched them. So annoying have these birds become, that in grave convention and solemn resolve they declare it is a "Republican bird."

If they ever got wider of the truth than this, there might be some hope of their salvation, miserable sinners as they are. Yes, we acknowledge the fitness and appropriateness of the designation. It is a useful bird. It is the friend of the farmer, and of the mechanic who has a few fruit trees, and all honest toilers.—It is his province to slaughter the destructive insects which infest our orchards especially of the class of vermin known as BORERS.

As it is with our orchards, so has it been with our State and National Governments under the Democratic control. They have been infested with divers sort of voracious and destructive insects; prominent among which have been the BORERS. Every department of the government has been filled with *borers,* who have been boring into the treasury in all directions. We have had *borers* in the land office, who have *bored* out of the treasury upwards of *four thousand dollars* when they ought to have but *one thousand,* and so through the whole round. And when these *borers* could contrive no way in which to bore into the treasury, they have bored into the pockets of our merchants in the shape of unlawful consul fees.

Now it is the nature of this "Republican woodpecker" to dig out and eat up these *borers.* And no wonder the whole tribe is terrified; for they no doubt feel just as any other kind of *borer* would feel, when a woodpecker was after them, that he would be the death of them.—*Temperance Journal.*

"WHEEL-REPUBLIC."—This able organ of the Republican party, published at the city of Washington, by Weston & Coombs, has done good service in spreading correct political principles, during the period of its existence, and has won the confidence and respect of the foremost friends of freedom throughout the country. Being published at head quarters, it has superior facilities for obtaining political intelligence, while at the same time its literary character is high, and its reports of general news correctly and promptly made. A reduction in its terms has recently been made, which places it within the reach of all who would like to be well posted in political matters.—Read these below:

Four copies, one year, $5; ten copies, one year, $10; and for any number exceeding four and less than ten, 1.25 per copy.

As some persons who are not acquainted with the paper would perhaps prefer subscribing for six months only, in the first instance, we will furnish it to Clubs of ten or more, for six months, at the same low rates, viz:

Ten copies, six months, $5; twenty copies, six months $10.

Brig Mary Hill, as she lies sunk off Hathaway & Luce's wharf, was sold at auction at New Bedford 10th, by Col Ingraham, to her owners, of Bangor, for $250. She will be raised, taken on marine railway, and re-tained.—We understand that the salvage has been settled.—*Boston Adv.*

LOCAL AND MAINE NEWS.

A Grand Republican Meeting.

Notwithstanding the very unpleasant and stormy weather of Saturday evening, there was a glorious gathering of Republicans. The house was filled in every part with the intelligent and substantial voters of our city; and the most enthusiastic and determined spirit was manifested in view of the approaching election. The Republicans appear, in fact, to be thoroughly aroused to their duty, and we have no doubt will give a good account of themselves to-day.

After the organization of the meeting by the choice of Gen. Samuel F Hersey for President, and Geo. W Snow for Secretary, Hon Hannibal Hamlin and Hon Israel Washburn, Jr. addressed the people for about three-quarters of an hour each, and were listened to with profound attention and reiterated applause.

Mr Hamlin briefly adverted to the constant progress which is making in the pro-slavery interpretations of the constitution, and the utter inconsistency of these interpretations with the practice of the fathers of the country, and of all our Presidents down to Mr Polk. He also reviewed the doctrines of the Dred Scott decision with scathing power—and set forth with great force and eloquence the position, the duty and the mission of the Republican party—to vindicate the rights of *free* labor.—He also gave a most encouraging report of his canvass in the Sixth District—assuring the Republicans that as matters stood when he left, our friends will carry that district by even a larger majority than in 1856. In closing, Mr Hamlin paid a most glowing and just tribute to the character, abilities and national reputation of our own distinguished Representative in Congress, Hon. Israel Washburn, Jr.,—which was received with a storm of applause.

Mr. Washburn's speech was in his happiest vein, and evidently came from a heart full of enthusiasm and hope for the cause. It was a most able and convincing effort, and was received with the highest approbation by as intelligent an audience as ever assembled in Bangor. Among other topics upon which he touched was the shiftless character and the injurious influence of slavery upon the whole country, and the fact that its propagandists have no limits to their efforts for its expansion and nationalization. He also called attention in an earnest and impressive manner, to that new and most pregnant doctrine for mischief, promulgated by the central democratic organ, and embodied in the Lecompton Constitution—that "*the right of property is higher than any constitutional sanction,*" and that the right of an owner to his *slaves* is the same as that of the owner to any other property. The attempt of the Buchanan democracy to get this assertion of the divine right of slavery endorsed by Congress, by the acceptance of the Lecompton Constitution, was most clearly demonstrated and strongly denounced by Mr. Washburn.—He also reviewed the Congressional contest upon Lecompton—and gave the English swindle a notice corresponding with its infamy.—The enormous expenditures of the Federal Government, and its extravagance for the benefit of the South, and of its Northern favorites, was also depicted with great effect.

Mr. Washburn, as Mr. Hamlin had done, said the Republican cause, according to all the indications, was sure of glorious success in the great battle field of the Sixth District—and also gave the most satisfactory accounts of different parts of Penobscot and Piscataquis which he has lately visited.

The meeting, with three cheers for the speakers, and three more for the cause, adjourned to the polls on Monday morning.

ORNAMENTAL IRON WORK.—We call attention to the advertisement of Messrs Chase, Brothers & Co., Boston, who are extensively introducing their ornamented iron railings and other beautiful work in iron. Mr R H Nathews the travelling agent of the establishment is at the Bangor House for a few days. He has some very handsome specimens of different varieties of this iron work, which he will exhibit to those who may desire to examine them.

Thanks to Bryant's Express for Boston evening papers in advance of the mail per steamer Sanford.

RELIGIOUS.—Twenty-eight persons were received into the Hammond St. Church on the 5th—17 by profession, and 11 by letter, making 63 in all since the year commenced.

PERSONAL. Hon. Horatio King, Assistant Postmaster General, arrived in Portland from Washington on Wednesday evening. He intends to pass a few weeks in our State.

MOVEMENTS FOR THE AROOSTOOK COUNTRY.—*Messrs Wheeler & Lynde:* The following is an extract of one of the many letters daily received at the Land Office, showing what they are doing for Aroostook in other States.

BANGOR, Sept. 9, 1858. I. R. C.

Extract of a letter from a gentleman in Vermont, making inquiries about Aroostook Co., also enclosing a slip from the St Albans Messenger.

"I have contemplated emigrating to the "West but I saw this statement in the paper, "and have thought that perhaps I might do "as well in Maine as any where else. My "means are limited, but I have strong hands "and a stronger will, and am determined to "have me a home of my own somewhere.

"I wish you to send me what information "you can conveniently, respecting this land "and its location, and also my most convenient "route to visit it."

The following is the extract from the St Albans (Vt.) Messenger:

While advocating that our young people had better remain agriculturists, or resort to agriculture as a calling, I am reminded that many of the common sense young people of Massachusetts, New Hampshire, and Maine, are making homes in the Aroostook country, a country in the North East part of Maine, nearly as large as the State of Massachusetts. This is a beautiful country, decidedly the richest soil in Maine, having the same climate that Vermont has, which can be had of the State in lots of 160 acres, by actual settlers, for fifty cents an acre, to be paid in three yearly instalments, *by the settler making his own road.* The State virtually give the land to settlers, and I know that its quality is not second to the best soil of Vermont, Western New York, or Northern Ohio. This is a grand chance for young men in Northern Vermont to get a farm, who would prefer not to go West. Let those who desire further information in regard to this land, write to the "State Land Agent," Bangor, Maine, who will send them a pamphlet of instructions. From North Eastern Vermont, to the Aroostook Country, Vermont people would not have to journey far to reach the best soil of that country situated upon the Aroostook river. Go, young men of Vermont, and see this land—you will never get a better chance to make a home, and have New England institutions around you. "A word to the wise is sufficient."

The Republicans of Augusta have nominated Wm T Johnson Esq, and James G Blaine, Esq, for Representatives.

James Stackpole Esq., has also been nominated by the Republicans of Waterville.

DEATH BY LIGHTNING. In the shower of Saturday afternoon, the house occupied by Mr Thomas Morse, in Dixmont, was struck by lightning. The lightning followed a chimney down to a stove funnel in the kitchen, and there it parted—a portion following one side of the house, and another part entering the cellar, where it struck and instantly killed Mrs Nancy Morse, wife of Mr Thomas Morse. No other person was injured. Mrs M. was about 55 years of age, and her loss will be severely felt. The house was not much damaged.

A match of base ball was played Thursday afternoon on the parade ground of the Boston Common, between the Portland Base Ball Club, and the Tri-Mountain Base Ball Club, of Boston, resulting in the defeat of the latter company by five tallies.

PERSONAL. Hon. Henry Wilson, of Mass., was in the city yesterday. He leaves for home by this morning's train.

TELEGRAPHIC
TO THE DAILY WHIG AND COURIER.

Later from California.

ARRIVAL OF THE

Star of the West,
AT NEW YORK.

New-York, Sept. 12.

Steamship Star of the West bringing California dates of the 20 h instant, and nearly $1,700,000 in treasure, arrived about twelve o'clock last night.

The California news is of no striking importance.

The anti Lecomptonists have nominated John Curry for Supreme Judge, and the Republicans endorsed the nomination. The Lecomptonists nominated J G Baldwin. The antis had also nominated the Hon Joseph C McKibbin, and W L Dudley of Calaveras, for Congress.

The grading of the San Francisco and Marysville railway is rapidly progressing.

The telegraph line has been extended to Yreka.

Advices from Fraser River are to the 14th. The river had fallen and the miners were doing better.

A fire at Sonora, on the 5th, destroyed $40,000 worth of property. The Presbyterian Church was burned.

The difficulties between Fremont and the Merced Mining Company continue. The latter refused to give possession of their vein, and the men who occupy it insist they will resist.

The guards of the overland mail which left Placerville, July 31st, had been killed by the Shoshone.

The Indians about Thunderbolt Bay are troublesome. They had killed Orrin Stevens and John Vandell.

Thomas Boyle is the only person known to have been lost in the Oregon.

The Democracy of San Francisco held a primary election on the 14th. Lecomptonists elected two-thirds of the delegates.

A number of the soldiers who arrived in Golden Gate deserted in citizens' dress. Some were arrested.

1000 Chinamen had landed in California during ten days.

San Francisco, Aug. 20 — The markets continue very dull owing to large arrivals and a small demand. Auction sales trifling. Provisions steady—Clear and extra clear pork $26 a $30 per bbl.; prime $28 a $29; patent covered hams 22c.; lard scarcely so firm, choice 16½; mess beef 35c; butter 35c; sugar, considerable business, eastern crushed 13 a 13½c.; New Orleans 10 a 11; rice 5 a 5½; syrup 72½ a 65 for West Boston; candles, adamantine, 19 a 20. No change in dry goods. Nails better 4 a 4½; boots and shoes will be a decided loss to shippers.

Financial matters are easy beyond anything yet known. Collections highly satisfactory and money has gone begging at ½ per cent. in merchandise securities.

The business portion of Georgetown, El Dorado County, was burnt—loss exceeded $100,000.

A desperate affray had taken place at Paris Bar, Stanislaus County, Aug. 4th, between a party of French and Americans, in regard to a mining claim, which resulted in the death of three of the latter—Leonard Shock, Abraham Delevan, and Robert Warren; and the wounding of Geo. J. Crooks, Chas. McKenney and Roger McClure.

The French were outnumbered, and used guns. The murderers have not been arrested.

Mr Broderick proceeds to Washington overland, before the assemblage of Congress.

Sandwich Island dates are to July 24.—Some newly discovered island 8 to 900 miles southwest of Honolulu, had been annexed.

The Star of the West, connected with the Golden Gate, which passed on the 26th the Golden Age, and on Sept. 2, the Sonora, off Point Mela, bound up.

Geo H. Steeler, aged 40, late resident of Rough and Ready, California, died on board the Golden Gate.

Brig Fanny Whittier, Lewis, from New York for San Juan, Central America, was lost on Pickadore Reef, 19th July. Crew and passengers saved.

From Washington.

Washington, Sept. 11.

Dr Thomas Rainey of New York, has been appointed by the President, Special Agent to accompany the recaptured Africans and deliver them over to the authorities of Liberia. He is well known in the enterprise for establishing a line of steamers between the United States and Brazil, which he will continue to press at the next session of Congress.

New Orleans papers of Tuesday last, containing Mexican news are to hand.

Tampico was captured by the Liberalists with 400 frontiersmen, assisted by the revolutionists inside.

Gen Vidaurri, with 10,000 men and 64 pieces of artillery, was left at San Luis early this month, to march against Guanajua and the city of Mexico.

A financial transaction was about to take to take place between Gen Vidaurri and the Governor of Zacatecas, by which it was said that Vidaurri would be placed in possession of ample means to ensure success.

An Express arrived at San Lois on the 18th of August, saying that the forces of Clamberti had defeated those of Megia; that those of Luera had defeated those of Miramon stationed at Salanico; that Miramon was on his way to the city of Mexico, and that the forces of Aramberri had gone in pursuit of the disbanded ones of Megia, until the latter had entered Queretaro.

Gen. Harney will sail for the Pacific on the 20th, and will have a force of 3000 men when all the contingents arrive.

From New York.

New York, Sept. 11.

A Port au Prince letter of the 17th ultimo says that two American men-of-war were there in the Navesa Island affair. Nothing is yet decided. The commander of the Saratoga declared to the government that he had been sent to protect the Americans on Navesa Island, and that if their government has any reclamations to make on the subject, it must send to the government at Washington. This is considered an intimation to send a minister here.

The Steubenville Railroad Accident.

Pittsburg, Sept. 11.

The rumors in regard to the Railroad accident at Steubenville were greatly exaggerated. A dispatch from James G Morris, Secretary of the Steubenville and Indiana Railroad, says a bridge broke near the first tunnel, but will be ready for passing to-day. All the passengers went off this morning but one man, who has both legs broken. Conductor Moody has a severe flesh wound in the head—the baggage master was slightly hurt. James Fleming, an Engineer, who was on the train but not on duty, was badly hurt. Other passengers were slightly injured, but were able to leave.

Another despatch, just received, says, the accident occurred 17 miles West of Steubenville, while crossing the bridge one car and tender engine jumped from the track, knocking out some of the main timbers, when the bridge gave way. The baggage car and front passenger car went down with the bridge, 10 or 12 feet, the rear end of the train remaining on the abutment. The first car is a complete wreck, on top, and the seats in the rear car were broken from their fastenings.

Meeting of Railroad Presidents.

Philadelphia, Sept. 11.

At the meeting of Railroad Presidents, the following rates of freight from the principal points West to New York, were agreed upon; per 100 pounds as charged—First class from Cincinnati 12[illegible]; from Louisville 135; from St Louis 170; from Chicago 155; from Toledo 140; from Cleveland 90 cents; from Terre Haute 160; from Cairo 175. The results of the convention also involve a general advance of the passenger fare from all competing points to New York of $2, and a very slight advance on the fares to Philadelphia, making the rates to both points about the same as previous to the reduction. These rates, together with the advance on freight, will go into effect after the ratification by the four lines interested.

New York Markets.

New York, Sept. 11.

Flour, State and Western dull and drooping—sour and 3,50 a 4,30 Superfine State 4,90 a 5,00; round hoop Ohio 5,60 a 5,65; common to good extra Western 5,20 a 5,65. Southern heavy—mixed to good 4,30 a 5,40; fancy and extra, 5,60 a 7,75. Canadian—extra 5,50 a 6,40.

New Publications.

Agnes; A Novel. By the author of Ida May. Boston: Phillips, Sampson & Co. 1858.

The mere announcement of a new work by this gifted author is sufficient to secure it a warm reception and a rapid sale. Few writers have had such power over the human heart, or have been able to put themselves so closely in sympathy with the holiest emotions of our nature—at the same time possessing the faculty of strong delineation and graphic description. "Ida May" was deservedly a popular book, and a successful book in the great world of letters—and it owed its popularity and success to the writer's strong sympathy with and understanding of human nature.

The present work, "Agnes," is a tale of woman's constancy and woman's devotion through severe trial. We doubt not it will be equally popular with its predecessor.

Fire at Chatham. A correspondent, writing from Chatham-Four-Corners, says: "A fire having occurred in our town, and not seeing it noticed in the papers, has induced me to forward the same to you for publication.—About nine o'clock, on the forenoon of the 8th of July, while the workmen were at work, a fire was discovered near one of the pickers in the picker mill of Mrs. E. Webster, at the 'White Mills,' of Chatham, which soon consumed the building and machinery, making the whole a total loss, except the water wheel, which was put in motion and thereby saved.—It is supposed the fire originated from friction. The building, fixed and moveable machinery, were insured for 11650, in the following companies, viz: 1000 in Exchange, N. Y., and $650 in Trident of Providence, R. I. Much credit is due to each of the above companies for their promptness in settling the losses prior to the time mentioned in their policies. Rebuilding is commenced, and the mill will soon be again in motion.—*Hudson Gazette.*

The Crops.—The weather during the past week has been very favorable for promoting the growth of the crops, and with a few more weeks of such weather, corn would be secured against frost, and our farmers would get more than an average yield of this grain. Many fields of oats are already harvested, thrashed and gone to market, and so many have been brought in, that the price has gone down to thirty-five cents, but we think they will not remain at this price long, since the partial failure of the hay crop, and the large number of horses in the country, will cause a demand for them at higher prices. Fruit is looking well in this vicinity and the crop of apples bids fair we think to be larger and better than for several years.—*Somerset Telegraph.*

Accidents.—A man thirty-six years of age, named William S. Carney from Maine, fell from a fourth story of house No. 353 North street, on Wednesday night, and was seriously if not fatally injured. He was taken to the Hospital.

By the falling of a staging inside the new block adjoining the American House in Hanover street, on Wednesday, three or four persons were more or less injured. Parks Elwell, a carpenter, of Richmond, Me., received serious internal injuries, and Daniel B Grant was badly bruised and has one of his ankles sprained. The others were slightly injured.—*Boston Courier.*

Correction.—Hon. Geo. F. Shepley waited upon us yesterday and assured us upon his personal knowledge that no draft has been paid in this city by Mr. Bliss in favor of Geo. S. Peters. Mr Shepley's personal assurance goes as far with us as that of any other gentleman, and we cannot doubt, therefore, that we were led into error in our previous publication, and thus unintentionally did wrong to Mr. Peters. Our information, however, was of so direct a character, that we could not at the time doubt its entire correctness, and hence the publication was only made by us under the implicit belief that it was strictly true. If any injury has resulted to Mr. Peters, we sincerely regret it. *Portland Adv.*

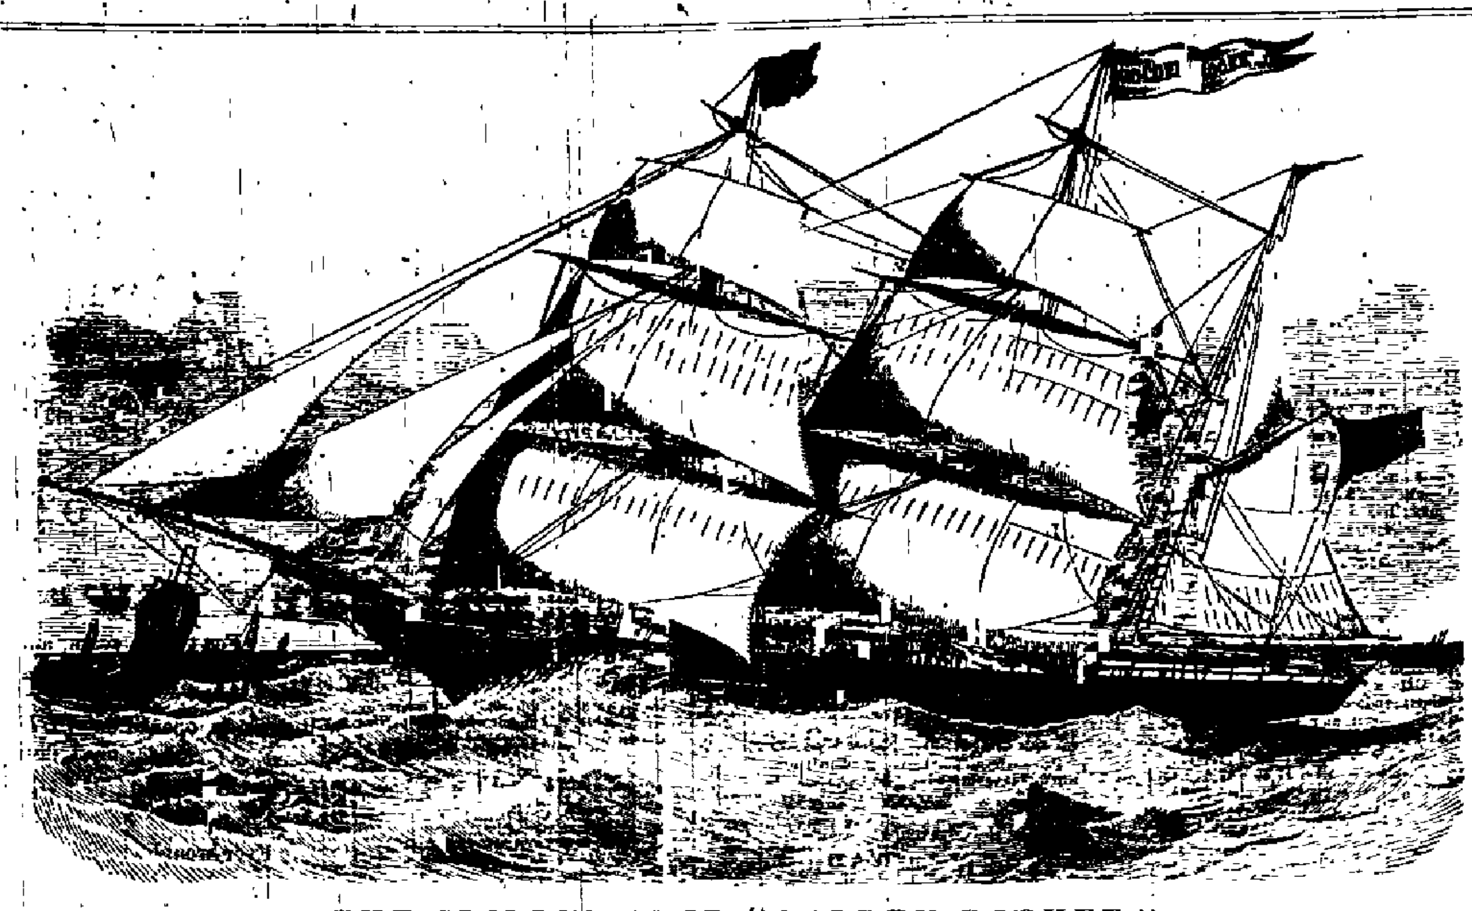
VIEW OF BANGOR, on letter sheet, for sale by D. BUGBEE & CO.



THE CLIPPER SHIP "GOLDEN ROCKET,"

Of 600 Tons, now on the Stocks in Messrs. Cooper's Ship Yard, will be constructed expressly for a Packet, to run between Bangor and San Francisco, and will leave Bangor for that place about the middle of October next. It is confidently expected the GOLDEN ROCKET will make one of the quickest passages ever made from this State—as she will be commanded by one of the most experienced Ship Masters, who has already made three voyages to that place. The Golden Rocket will take out a small quantity of heavy freight in her lower hold, which will put her in perfect ballast or sailing trim (a part of the freight being already engaged.) She will have spacious "between decks," and houses on deck, fitted up expressly for women and children, with a large complement of female servants expressly to look after their wants—which arrangement will give those wishing to forward their wives or children to California an opportunity never before offered. Women who are obliged to labor for a subsistence, and who would wish to seek a home on the golden shores of California, where their services are better appreciated and better paid for than any other place on the globe, will find this a better opportunity than ever before offered in the United States—more especially in the accommodations they will have for the price they pay. There will be several commodious Cabins in the ship, and families or ladies desiring extra accommodations, will be furnished with State Rooms, &c., equal to those in first class steamers. Quite a large number of passages have already been engaged for men, women and children. The ship leaving here in the fall, will bring her off Cape Horn in midsummer, which will make the trip a pleasant one—and arriving in San Francisco about the first of February, the time when mining operations commence, will meet the wishes of a large number of those bound to the shores of California. Those wishing to write to their friends in California, and get returns, will have ample time between this date and the time the ship sails. The Golden Rocket will touch at Rio and Valparaiso on her passage out. Those wishing time on a part of their Passage or Freight Money, can have it by giving satisfactory security. **Passage $150.** For Freight or Passage, apply to

American & Foreign Patents.

R. H. EDDY,

SOLICITOR OF PATENTS,

Late Agent of U. S. Patent Office, Washington under the Act of 1837.,

76 State St., opposite Kilby St.,

BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries. Caveats, Specifications, Bonds, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

The Agency is not only the largest in New England, but through it inventors have advantages for securing Patents, of ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The Testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON."

Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office. EDMUND BURKE,

Late Commissioner of Patents.

Boston, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGERT."

From Sept. 17th, 1857, to June 17th, 1858, the subscriber, in course of his large practice, made on *twice* rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

American Safety Paper Manufacturing Company of N. Y.

Capital $500,000.

A. NICHOLAS, President. Office, 70 Wall-st.

A Perfect Security against all manner of Fraud or Counterfeiting on Paper—To Prevent Photographs and Anastatic Counterfeits, Erasures, Transfers or Alterations.

HAVING purchased the Patent for the exclusive right to manufacture and sell the Chemical Paper, in America, invented and patented in England by HENRY GLYNN, a celebrated chemist and officer in the British army, it is hardly necessary to say that the Paper is recommended by Mr. Kent, Assayer of the U. S. Mint, Mr. Lyman of the New York Clearing House, and Meade Brothers, extensive and skillful photographers, 233 Broadway, N. Y. The latter say that no imitation can be made on a check or bank note printed on the Safety Paper. Below is our list of prices:

Bank Checks—35 cts. per lb.

Bank Bills—$18 for 1000 sheets.

Bills of Exchange—$25 for 1000 sheets

Promissory Notes—40 cts. per lb

Sight and Time Drafts—$25 for 1000 sheets.

Insurance Policies—40 cts. per lb.

Railroad Stocks and Bonds—40 cts. per lb

Bank and State Stocks—40 cts. per lb.

Bonds and Mortgages—40 cts. per lb.

Wills and Deeds—40 cts. per lb.

For wrapping Silks and other fine articles it is excellent, as it prevents moths. 40 cts. a lb.

For Indentures and Agreements, 40 cts a lb.

All State and County Records should always be printed or written on this paper, as the chemicals inserted in the pulp not only prevents erasure or transfer, but makes it lasting as time.

For Southern climates it is excellent, and much superior to any other; as the moisture of the climate does not destroy it,—the properties inserted in the pulp being a preventive. In all the Southern States, Cuba, the West Indies, and the Central American States, no public records can be kept over 20 years, written on the ordinary paper, while the oils and other chemicals inserted in this paper makes it indestructible by the ravages of time. It is also proof against moths, rats and other vermin, which feast on and destroy all other paper now in use.

The Company have now in operation Mills in Morris County, N. J., of about 300 horse power, and are able to fill all orders for Paper at the shortest notice.

All orders for the Paper must be addressed to A. NICHOLAS, President of the Company, No. 70 Wall street, New York.

Hitchcock's Combination Suction and Force Pump!

FOR SALE, a new kind of PUMP—suction and force—different from any thing now in use, for durability, &c. You can draw water from a deep well and force it to any part of your building at the same time, in case of fire or any other exigency. You can have it with or without the forcing part. Any person, with a jack-knife can do all the repairing that it will need for twenty years, as it will not get out of order and is not liable to freeze up like other Pumps. It has received the first premiums at four State fairs, and numerous county fairs.

It may be examined at the Tin Shop of P. B. MILLS, Exchange street, Bangor, where I shall remain for a few weeks. Town rights for sale.

THE LIVER INVIGORATOR,

PREPARED BY DR. SANFORD,

Compounded entirely from Gums,

IS ONE OF THE BEST PURGATIVE AND Liver Medicines now before the public

LIVER INVIGORATOR

These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, *purifying the blood*, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure

Bilious attacks are cured, and, what is better prevented, by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring prevents *nightmare*.

Only one dose taken at night loosens the bowels gently, and cures *costiveness*.

One dose taken after each meal will cure *Dyspepsia*.

One dose of two tea spoonfuls will always relieve *Sick Headache*.

Only one dose immediately relieves *Cholic*, while

One dose often repeated is a sure cure for *Cholera Morbus*, and a preventive of *Cholera*.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for *Jaundice* removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures *Chronic Diarrhœa* in its worst forms while *Summer and Bowel Complaints* yield almost to the first dose.

A few bottles will cure *Dropsy* by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for *Fever and Ague*, *Chill Fever*, and all Fevers of a *Bilious* type. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

Price One Dollar per Bottle.

Ayer's Pills

HOPE.

Subjoined are the statements of physicians, of their effects in their practice.

AS A FAMILY PHYSIC.

From Dr. E. W. Cartwright

"Your Pills are the prince of purges. Their excellent qualities surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease."

FOR JAUNDICE AND ALL LIVER COMPLAINTS.

From Dr. Theodore Bell

"Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I can mention. I sincerely rejoice that we have at length a purgative which is worthy the confidence of the profession and the people."

DYSPEPSIA — INDIGESTION.

From Dr. Henry J. Knox

"The Pills you were kind enough to send me have been all used in my practice, and have satisfied me that they are truly an extraordinary medicine. So peculiarly are they adapted to the diseases of the human system, that they seem to work upon them alone. I have cured some cases of dyspepsia and indigestion with them, which had resisted the other remedies we commonly use. Indeed I have experimentally found them to be effectual in almost all the complaints for which you recommend them."

DYSENTERY — DIARRHŒA — RELAX.

From Dr. J. G. Green

"Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses, for bilious *dysentery* and *diarrhœa*. Their sugar-coating makes them very acceptable and convenient for the use of women and children."

INTERNAL OBSTRUCTION — WORMS — SUPPRESSION.

From Mrs. E. Stuart, who practises as a Physician and Midwife

"I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the natural secretion when wholly or partially suppressed, and also very effectual to cleanse the stomach and expel worms. They are so much the best physic we have that I recommend no other to my patients."

CONSTIPATION — COSTIVENESS.

From Dr. J. P. Vaughn

"Too much cannot be said of your Pills for the cure of costiveness. If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming it for the benefit of the multitudes who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe costiveness to originate in the liver, but your Pills affect that organ and cure the disease."

IMPURITIES OF THE BLOOD — SCROFULA — ERYSIPELAS — SALT RHEUM — TETTER — TUMORS — RHEUMATISM — GOUT — NEURALGIA.

From Dr. Ezekiel Hall

"You were right, Doctor, in saying that your Pills purify the blood. They do that. I have used them of late years in my practice, and agree with your statements of their efficacy. They stimulate the excretories, and carry off the impurities that stagnate in the blood, engendering disease. They stimulate the organs of digestion, and infuse vitality and vigor into the system.

"Such remedies as you prepare are a national benefit, and you deserve great credit for them."

FOR HEADACHE — SICK HEADACHE — FOUL STOMACH — PILES — DROPSY — PLETHORA — PARALYSIS — FITS — &c.

From Dr. Edward Boyd

"DEAR DR. AYER: I cannot answer you what complaints I have cured with your Pills better than to say *all that we ever treat with a purgative medicine*. I place great dependence on an effectual cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly."

Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

Ayer's Cherry Pectoral

Has long been manufactured by a practical chemist, and every ounce of it under his own eye, with invariable accuracy and care. It is sealed and protected by law from counterfeits, and consequently can be relied on as genuine, without adulteration. It supplies the surest remedy the world has ever known for the cure of all pulmonary complaints; for Coughs, Colds, Hoarseness, Asthma, Croup, Whooping Cough, Bronchitis, Incipient Consumption, and for the relief of consumptive patients in advanced stages of the disease. As time makes these facts wider and better known, this medicine has gradually become the best reliance of the afflicted, from the log cabin of the American peasant to the palaces of European kings. Throughout this entire country, in every state and city, and indeed almost every hamlet it contains, CHERRY PECTORAL is known as the best of all remedies for diseases of the throat and lungs. In many foreign countries it is extensively used by their most intelligent physicians. If there is any dependence on what men of every station certify it has done for them; if we can trust our own senses when we see the dangerous affections of the lungs yield to it; if we can depend on the assurance of intelligent physicians, whose business is to know; in short, if there is any reliance upon any thing, then is it irrefutably proven that this medicine does cure the class of diseases it is designed for, beyond any and all other remedies known to mankind. Nothing but its intrinsic virtues, and the unmistakable benefit conferred on thousands of sufferers, could originate and maintain the reputation it enjoys. While many inferior remedies have been thrust upon the community, have failed, and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.

BEES.

THE LUXURY AND PROFIT OF

HONEY MAKING.

Torrey's Bee Hive.

THE subscriber, having purchased the right of making and vending Torrey's Patent Bee Hive, for the Counties of Penobscot and Sagadahoc, which has been received with great favor, and taken the first premium wherever exhibited, has introduced a new improvement in the Bee Hive and is now prepared to furnish hives in connection with the Patent Right, and will sell rights to towns and individuals.

This Bee Hive thus improved is believed by persons acquainted with the habits of bees to be superior to every other hive invented for the purpose. It combines every facility for the profitable maintenance of bees, by providing for ventilation at all seasons, ample room for the exercise and feeding, every convenience for the removal of honey, and the proper separation of the swarms, and secures the health and comfort of the bees.

The boxes used in this Hive are the best adapted in their size holding from three to six pounds each.

The subscriber wishes to purchase several swarms of bees in exchange for territory or individual rights.

For sale, fifty swarms of Bees in the new hives.
